REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Patentability seen in, although not limited to independent claims 1, 5, and 12: the combination of elements specifically claimed including the features of providing an electronically scored game having a game level difficulty input switch to select a level of game difficulty, wherein audible recordings are played based on the level of game difficulty selected, and wherein the audible recordings are derisive audible recordings when the quality of game activity is unfavorable. The closest prior art of record does not teach or fairly suggest the claimed features in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Giegerich (US 2004/0121855) - discloses a touch pad scoring apparatus for dart games.

Hersh (US 7,207,804) – discloses a computerized job assessment system, wherein a user's performance is analyzed while administering stimuli that is used to stress the user.
